

Ka-32A11BC is a multipurpose helicopter certified for compliance with the AP-29 and FAR-29 Airworthiness Regulations. The helicopter is intended for people transportation, internal and external cargo transportation, evacuation of patients and casualties, for search-and-rescue operations, construction-and-assembling operations and fire-fighting missions.

SPECIFICATIONS:

Max weight, kg	
- take-off	11,000
- weight with external load	12,700
Engine type	2 TV3-117VMA
Power rating, shp	2 x 2,200
Main rotor diameter, m	15,9
Length, m	11,3
Height, m	5,4
Width, m	3,8
Max speed, km/h	260
Cruise speed, km/h	230
Operational range, km	670
Rate of climb, m/s	15
Service ceiling, m	5,000
Hovering ceiling, m	3,700
Crew, prs	1-2
Passenger capacity, prs	
- std	13
- high density	16
Payload 3,700 kg inside cabin or 5,000 kg on ext. cargo sling
